ILLINOIS DEPARTMENT OF PUBLIC HEALTH REORGANIZED

The first step in the reorganization of the Illinois Department of Public Health became effective August 1, when the Department's fifteen divisions were merged into six such units.

The new units include: (1) the Division of General Services, headed by Mr. B. K. Richardson, Senior Administrative Officer of the Department; (2) Division of Personal Health Services, under the direction of Dr. Leonard M. Schuman, formerly Acting Chief of the Division of Communicable Diseases; (3) Division of Hospital and Institutional Services, headed by Dr. G. Howard Gowen, formerly Chief of the Division of Cancer Control; (4) Division of Local Health Services, under Dr. Charles F. Sutton, who has been serving as Chief of that same Division; (5) Division of Environmental Health Services, under Mr. C. W. Klassen, formerly Chief of the Division of Sanitary Engineering; and (6) the Division of Laboratory Services, which re-

mains under the direction of Dr. H. J. Shaughnessy.

As may be noted in the accompanying diagram, the Division of General Services includes Bureaus of Public Health Education, Nursing, Statistics, Public Health Dentistry, Administration, and Hotel and Lodging House Inspection.

The Division of Personal Health Services includes Bureaus of Epidemiology, Tuberculosis Control, Maternal and Child Health, Industrial Hygiene, and Preventive Mental Health Services.

Included in the Division of Hospital and Institutional Services are the Bureaus of Hospital Planning and Construction, Licensure and Inspections, Cancer Control, and Heart Disease Control.

Under the new organization, the Division of Local Health Services will coordinate activities of five regional health offices, and will maintain liaison with all local health departments.

Under the Division of Environmental Health Services are Bu-

reaus of Public Water Supplies, Stream Pollution, General Sanitation, and Milk and Food.

The Division of Laboratory Services includes Bureaus of Diagnostic Services, Sanitary Bacteriology, Biologic Products, Laboratory Evaluation, and Virus Diseases and Research.

In general, the reorganization follows recommendations of the U. S. Public Health Service, which recently completed an extensive survey of the organization and operation of the State Department of Public Health.

In announcing the new setup for the Department, Dr. Roland R. Cross, Director, pointed out that "improved efficiency and economy are an important end in view. Although the new groupings will probably be permanent, they are subject to changes which may be necessary to conform with recommendations not yet made by the Commission on the Study of State Government."

Kaskaskia Commons (con't)

L. 1895, p.98. Ap. June 21, 1895.

Authorized the extension of the town site and to acquire territory for that purpose within three miles of the old limits.

In pursuance of this law, upon proper petition and by the passage of a proper ordinance...the corporate limits of Kaskaskia were extended southward two and a half miles to and including a tract of land purchased for that purpose.

The above is all the legislation that has been exacted concerning the said commons."

1909. Extent of the commons:

The lands comprising the said commons and grants to individuals (now called deeded lands) are now an island in the Mississippi River, in Randolph Co., about six and a half miles wide containing about 15,000 acres about one-third of which is deeded lands and the balance the commons.

Kaskaskia Commons (con't)
 Disposal of the commons (con't)

Dispositions of the lands by lessees under act of 1851:

1855. Subdivision and lease of that portion of the commons adjoining the town of Kaskaskia and extending south from the town about two and a half miles, containing about 1700 acres, for a term of 50 years, at from \$.10 - \$.60 an acre annual lease. 1905 leases on survey No. 1 expired. Part had washed away.
- The trustees made a new survey and plat and released the land in 40 acre lots on Jan. 14, 1905. A number of the holders of leases under the old survey No. 1, though not residents of the village of Kaskaskia, thought they ought to be preferred in bidding and went to the sale determined to buy or prevent an actual sale. The result was exorbitant bids and none of the bidders complied with their bids.
- Jan. 24, 1905 the trustees at a special meeting determined upon a certain annual lease on each lot separately at private lease, ranging from \$.50 to \$1.50 per acre annual lease, and averaging \$.75 an acre. They also decided to allow the inhabitants of Kaskaskia the refusal of said lots at the prices fixed, to the extent of one lot for each legal voter and head of a family, including the widows who were heads of families. The order of choice was determined by lot.
1867. Survey No. 2. Surveyed, platted and leased in same manner for 50 years at prices from \$.90 to \$2.05 an acre; this being much higher and better land than the first survey.
1889. Survey No. 3. 50 years at \$.45 to \$2.05 an acre.
1890. Survey No. 4. Bidders placed high and unreasonable bids on the lots in this survey and after the sale was over failed to comply with their bids. Afterwards this survey was leased to the residents of the village of Kaskaskia at \$.10 an acre annual lease, since which time almost all of said 4th survey has been sub-let.
1900. Survey No. 5. Leased for 50 years at \$.50 to \$2.50 per acre. Much of this subdivision is very low, being accretions, and more than half of it has since reverted to the trustees and been released by them at lower prices.

Schools

1855. The trustees established a school in Kaskaskia and a few years later a second. These have been run in accordance with the 1851 act and have been free to all children of commers and lessees. Two school districts were established under state laws.

Kaskaskia Commons (con't)

Religious support.

1855. Since 1855 the trustees have appropriated a part of the common funds for the purposes of religion and support and advancement thereof upon petition each year of a majority of legal voters residing within the limits of the town of Kaskaskia.
1909. Suit brought in Supreme Court (243 Ill. 239) against the trustees charging fraud and collusion between the trustees and residents of the village of Kaskaskia in re-leasing survey No. 1 in the year 1905, also for misappropriation of funds. The court upheld the charges, ruling that the word "town" used in the constitutions of 1818 and 1848 and in the act of 1851 means "parish" as used in the French patent of 1743 and that legal title is vested in the Parish of the Immaculate Conception of Kaskaskia "in trust for inhabitants of the parish and not of the village, but not vested in the inhabitants of the parish as individuals." The power to authorize a sale of the lands rests in the state.

Sale of Kaskaskia commons.

1909. An act to provide for the sale of the Kaskaskia commons, upon the Island of Kaskaskia, in the county of Randolph, and to create a permanent school fund for the inhabitants of said island out of the proceeds of said island out of the proceeds of said sale and to punish any person failing to comply with the provision thereof. Filed June 16, 1909. L. 1909, p.425. Amended L. 1915, p.632; L. 1939, p.1080; L. 1945, p.1582.
- Governor to appoint three "Land Commissioners of the Commons of Kaskaskia," not more than two of whom shall be of the same political party. Governor to appoint to vacancies in board.
- Land Commissioners to take possession of all records and real and personal property relating to the Commons from "President and Trustees of the Commons of Kaskaskia." May sue said trustees for misappropriation of funds.
- To cause commons to be resurveyed and platted following present surveys so far as practicable, and designating cultivated lands, low lands, timber lands, improvements, etc.
- To appraise lands and file certified copy of appraisal and plat with auditor, also list of lessees and persons in possession of said lots with a brief description of the leases.

Disposition of Land by leases under act of 1851.

Lessees notified that they may take up preemption within 60 days of notice, by paying the appraised price of the lands without the improvements, one fourth in cash, three-fourths by mortgage to be amortized in three equal payments one in three years, one in six years, and the other in ten years; interest at 5% payable semi-annually.

Kaskaskia Commons (con't)

Disposition of Land by leases under act of 1851 (con't)

Lands not sold to lessees to be sold at public auction after 30 days notice. Lots not sold for at least 2/3 of appraised value to be reserved until they can be sold at private or public sale for that amount unless on account of some physical changes in river or otherwise the value changed or after repeated attempts that amount cannot be obtained. Then to have them reappraised.

Commissioners to collect rents, lease unleased and unsold portions.

Deeds to be signed and executed by commissioners and approved by Governor. In case of default on payment, attorney general to foreclose mortgages and the commissioners or the auditor by and with the consent of the Governor, to re-sell the lands "For such price and upon such terms as they may deem best to get the most out of them and to finally dispose of the same." In case this be done after the commissioners are discharged the auditor with the consent of the Governor, to make conveyance.

School buildings on commons to be taken possession of. If suitable for school purposes commissioners to deed them to the legally constituted school authorities of said school districts for school purposes. If unsuitable for school purposes to be sold like the other common lands.

Records

Commissioners to keep a book with a complete record of all their acts and doings and the sales made by them showing the appraisal of each lot, the lessee and to whom sold, the price per acre and payments.

When sale is completed to make final report to Governor and turn over all funds to the State Treasurer to be kept in a separate fund designated the "Kaskaskia Commons Permanent School Fund." All notes, mortgages and securities to be turned over to auditor. Governor and auditor to check reports and discharge commissioners.

Funds to be invested by State Treasurer and Auditor in school, municipal, or state bonds, or first mortgages on real estate, to bring at least 5% interest.

Auditor to keep securities and keep a record thereof. Income paid out by treasurer upon warrants issued by the State Auditor on certified itemized bills filed by school directors or boards of education of the Island of Kaskaskia.

Auditor to apportion income to the school districts annually and notify boards as to amounts due them.

Commissioners to report to Governor annually and turn over interest on funds to state treasurer. \$30,000 bond each.
